Aerospace and Aviation in Manitoba Day
Premier Sponsor

Since 2007, AAiM Day has annually energized over 700 sixth graders with a dynamic exploration of aerospace and aviation, based on the 6th Grade science curriculum.

AAiM Day is an immersive event which showcases our province's vibrant aerospace and aviation sectors, offering a glimpse into possible future career paths for the students. In two lively sessions, one in the morning and the other in the afternoon, the students dive into six interactive aerospace/aviation stations, rotating every 15 minutes in groups of 30-35. It's a whirlwind of hands-on learning and inspiration!
