Workforce Pathways Coordinator

JOB DESCRIPTION

Organization	Manitoba Aerospace and Defence Association (MADA)
Location	Winnipeg, Manitoba
Reports To	Director of Workforce Development
Position Type	Full Time

Position Summary

Reporting to the Director of Workforce Development, the Workforce Pathways Coordinator coordinates programs and partnerships that connect students, job seekers and underrepresented talent with education, training, work-integrated learning and employment opportunities across Manitoba's aerospace, defence and advanced manufacturing sectors. The role translates workforce priorities into well-organized, participant-focused activities and supports employers in building sustainable talent pathways.

The Coordinator works closely with employers, educational and training institutions, Indigenous organizations, community agencies and other partners to deliver career awareness, experiential learning, recruitment and workforce-readiness initiatives. The role is also responsible for participant and employer coordination, outreach, data collection, outcome tracking and continuous improvement.

Key Responsibilities

1. Workforce Pathways and Program Coordination

- Coordinate the day-to-day delivery of workforce pathway initiatives, including career awareness, employability preparation, training referrals, work-integrated learning, mentorship, exposure activities and employment connections.
- Maintain program work plans, schedules, participant lists, partner commitments, milestones, risks and follow-up actions.
- Coordinate participant intake, eligibility confirmation, orientation, referrals, placement matching, check-ins, completion and transition to next-step education, training or employment.
- Help identify and address participation barriers by connecting individuals with appropriate community, educational and employment supports.
- Support the development and implementation of new-hire, pre-employment, upskilling and workforce-readiness projects aligned with employer needs.

2. Work-Integrated Learning and Employer Engagement

- Source and coordinate work-integrated learning opportunities, including job shadows, workplace tours, internships, co-op or practicum placements and other experiential learning activities.
- Engage MADA member companies and other sector employers to understand occupational demand, entry requirements, hiring needs, skills gaps and placement capacity.
- Prepare employers and participants for successful placements by clarifying expectations, timelines, workplace requirements and communication protocols.

- Monitor placements through scheduled check-ins, document issues and outcomes, and escalate concerns to the Director of Workforce Development when appropriate.
- Maintain current information on member vacancies, career pathways, training opportunities and employer contacts.

3. Career Awareness and Participant Support

- Plan and deliver sector career presentations, industry tours, career fairs, classroom visits, information sessions, mock interviews, resume and LinkedIn workshops, networking activities and other outreach events.
- Provide clear, practical information about aerospace, defence and advanced manufacturing occupations, training pathways and employer expectations.
- Coordinate speakers, employers, educators, venues, registrations, materials, accessibility requirements, logistics and participant communications.
- Support participants in preparing for education, training and employment opportunities while maintaining appropriate professional boundaries and referral practices.
- Collect participant and partner feedback and use it to strengthen program design and delivery.

4. Partnerships and Inclusive Workforce Development

- Build and maintain effective working relationships with employers, educational institutions, school divisions, training providers, Indigenous organizations, newcomer-serving agencies, community organizations and government partners.
- Support initiatives that improve access and retention for youth, Indigenous Peoples, women, newcomers, persons with disabilities and other groups underrepresented in the sector.
- Coordinate partner meetings, advisory committees and working groups; prepare agendas and materials, record decisions and track follow-up actions.
- Apply culturally responsive, inclusive and accessible practices to participant engagement, communications, events and program delivery.
- Represent MADA professionally at community, education and industry events as assigned.

5. Labour Market Information and Program Development

- Gather and organize employer, participant and partner intelligence related to occupations, skills, hiring trends, training needs and workforce barriers.
- Contribute to training needs assessments, pathway mapping, program design and the development of practical workforce solutions.
- Research promising practices, partnership models and funding opportunities relevant to workforce development and career pathways.
- Assist with proposals, project plans, briefing materials, presentations and resource materials under the direction of the Director of Workforce Development.

6. Data, Reporting and Administration

- Maintain accurate, confidential and audit-ready participant, employer, partner, activity and outcome records using approved systems and templates.
- Track agreed performance measures such as outreach, referrals, participation, placements, completions, employment transitions, employer engagement and participant satisfaction.

- Prepare timely activity summaries, dashboards, success stories and supporting documentation for internal, partner and funder reporting.
- Monitor program deadlines, deliverables and administrative requirements, identifying risks or variances early.
- Follow applicable privacy, consent, confidentiality, accessibility, records-retention and funder-recognition requirements.
- Perform other related duties that support MADA's workforce development priorities, as assigned.

Qualifications

- Degree or diploma in human resources, adult education, career development, community development, education, social sciences, business, project management or a related field, or an equivalent combination of education and experience.
- Two to four years of relevant experience in workforce development, career services, program coordination, employment services, training, education, community engagement or a related area.
- Experience coordinating multiple activities, participants, partners, schedules and deadlines.
- Demonstrated experience building productive relationships with employers, educational institutions and community organizations.
- Strong written, verbal, presentation, facilitation, organizational and interpersonal skills.
- Proficiency with Microsoft 365 and the ability to learn databases, registration platforms and reporting tools.
- Ability to handle personal and organizational information with discretion and sound judgment.
- Valid driver's licence and access to reliable transportation are considered assets where travel to partner, employer or event locations is required.

Assets

- Experience in aerospace, defence, advanced manufacturing, skilled trades or an industry association environment.
- Knowledge of Manitoba's education, training, employment and community-support ecosystem.
- Experience supporting work-integrated learning, employer placements, Indigenous workforce development, newcomer employment, youth programming or inclusive recruitment.
- Experience with labour market information, performance measurement, government-funded programming or proposal development.
- Career development, human resources, adult education, project management or facilitation certification.

Core Competencies

- Program and Project Coordination: Plans work carefully, manages details and follows through on commitments.
- Participant-Centred Service: Provides respectful, practical and responsive support while maintaining professional boundaries.
- Employer and Stakeholder Engagement: Builds trust, identifies shared interests and sustains productive partnerships.
- Inclusive Practice and Cultural Awareness: Engages diverse communities with respect, curiosity and accessibility in mind.

- Communication and Facilitation: Communicates clearly across audiences and supports effective group learning and discussion.
- Organization and Attention to Detail: Maintains accurate records and manages competing priorities reliably.
- Judgment, Discretion and Problem Solving: Identifies issues early, uses sound judgment and escalates appropriately.
- Data and Results Orientation: Uses evidence, feedback and performance measures to improve delivery and demonstrate outcomes.
- Adaptability and Initiative: Responds constructively to changing needs and takes appropriate action within role authority.
- Collaboration and Accountability: Contributes positively to the team and takes ownership of assigned results.

Working Conditions

- Office-based work with regular external meetings, school or training-site visits, employer visits and events.
- Occasional travel within Manitoba and occasional evening commitments may be required.
- The role may involve periods of sustained computer work, event setup and movement of light program materials.
- MADA is committed to inclusive and accessible employment practices. Reasonable accommodation will be provided in accordance with applicable requirements.
